

Expression

A custom fit active wheelchair for image-conscious users in urban and semi-urban areas who are economically disadvantaged. Chair features light weight, super durability, transportability, extensive fit and positioning options, and a sleek urban look. Carries CE mark. Manufactured in factory with ISO 9000 quality system.

- Sweeping frame curves have sleek urban look similar to expensive chairs in the USA.
- Lighter weight than standard wheelchairs or rough terrain chairs for easy pushing.
- Versatile with a small footprint for maneuverability in tight places and speedy wheels on pavement and off. Works well in the office, local park, and on camping trips and traveling.
- Quick release wheels make chair easily transportable in cars.
- Strong enough for challenging environments. Durable bearings, wheels, and casters in standard easy-to-replace sizes. Strong enough to go up and down curbs every day.
- The best blend of style, affordability, and fit available today anywhere in the world.
